TECHNICAL PROJECTS

Arbitrage Sports Betting Model

Contract | *Python, APIRouter, NumPy, Pandas, MySQL*

- Populated databases with real-time and historical data from routine calls to several API endpoints
- Processed data based off client parameters, running with high precision and a latency less than 100ms
- Developed product in an Agile environment using Jira, including regular scrums and sprints, resulting in a stable build in under three weeks

Minesweeper React Application

Personal Project | *TypeScript, HTML, CSS, JavaScript, ReactJS*

- Deployed a web application under a React framework on an apache server, hosted on an EC2 instance
- Implemented various scalable generation algorithms over a configurable user interface to create unique deterministic game boards

Interactive Discord Application

Personal Project | *JavaScript, NodeJS, JSON, Python requests*

- Created an interactive and administrative bot to service clients of a server
- Leveraged web scraping to construct datasets to supply elements for variable response to user queries

EXPERIENCE

IT Operations Assistant

Ottawa, ON

Mercury Filmworks

May 2026 – August 2026

- Rebuilt a full stack Next.js app from the ground up; implemented a sustainable, and scalable framework over an LDAP authentication layer while optimizing requests to the connected MariaDB database
- Organized storage of physical assets, conducted a full review and inventory of IT resources

Independent Hardscape Contractor

Ottawa, ON

Self-Employed

August 2020 – August 2024

- Constructed over ten custom decks each with uniquely modern features
- Managed and installed a backyard patio with retaining wall and garden boxes as well as designed and laid a modern 1,000 ft² patio around a newly installed pool

Data Entry Clerk

Ottawa, ON

Mercury Filmworks

April 2023 – June 2023

- Transferred, reformatted, and categorized files into a centralized company database using HTML and JavaScript to ensure consistency and data optimization
- Facilitated successful deployment via documentation and technical support across all departments

Recreational Soccer Coach

Ottawa, ON

Ottawa City Soccer Club

September 2021 – July 2022

- Directed recreational programs and organized strategies of play while collaborating with coaching staff to organize a unified approach to player development
